# Hana Yamashita

## Frontend Developer

hana.yamashita.fe@gmail.com ◆ (415) 245-7039 ◆ San Francisco, CA ◆ linkedin.com/in/hana-yamashita

## Summary

Frontend Developer with 6 years building high-performance user interfaces at Airbnb and Figma. Reduced Airbnb search-results LCP from 3.4s to 1.8s (48% improvement) lifting booking conversion by 7%, optimized Figma's canvas rendering pipeline to cut jank by 41% on 1,000+ object designs, and led the Webpack 4 -> Vite migration that compressed local dev cold-start from 28s to 4s. AWS Certified Cloud Practitioner.

## Experience

### Senior Frontend Developer

Figma — San Francisco, CA — Mar 2022 - Present

UI components and editor-performance team for Figma's collaborative design tool.

- Optimized the canvas rendering pipeline reducing jank during large-file editing by 41% for designs with 1,000+ objects
- Led the migration from Webpack 4 to Vite, cutting local dev cold-start from 28s to 4s and CI build time by 33%
- Built a reusable component library on Storybook used by 5 product teams, reducing UI inconsistencies by 67%
- Mentored 3 junior frontend developers through weekly code reviews and pair-programming sessions
- Co-authored the team's React performance playbook adopted as the new-hire onboarding asset

### Frontend Developer

Airbnb — San Francisco, CA — Jul 2019 - Feb 2022

Search and listing pages performance and accessibility team.

- Reduced Largest Contentful Paint (LCP) on the search results page from 3.4s to 1.8s (48% improvement), lifting booking conversion by 7%
- Implemented React.lazy + code-splitting across 12 routes, shrinking initial JS bundle by 35%
- Achieved WCAG 2.1 AA compliance for 6 high-traffic page templates, expanding accessible user reach by an estimated 11%
- Led the post-mortem and remediation for the 2021 Black Friday search-page CLS regression

## Education

### Bachelor of Science

UC Berkeley - EECS

Computer Science

Berkeley, CA

Sep 2015 - May 2019

GPA: 3.8/4.0
